KURUMBA VILLAGE RESORT

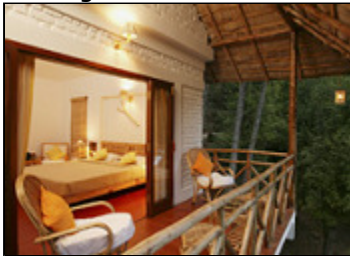

The Kurumba Village Resort is a rare aromatic arena; far from spicing with mere words, we have established the self-sufficing cottages amidst a SPICE haven where nutmeg, cloves and pepper abound. These spice trees were originally introduced to the Nilgiris by the English. We have consciously enriched the "spice sanctuary" with other enchanting trees such as Jacaranda and Spathodia.

We already have the uniquely interesting Jackfruit trees and the soaring and sturdy Rosewood trees. It is not for mere hyperbolic effect that we remember William Shakespeare's "never, never lands" such as Arden and Illyria, or, the other exhilarating locales of A Midsummer Night's Dream

The invigoratingly clean air of the Kurumba Village Resort is to be breathed to be believed

ACCOMMODATION

Kurumba Cottages

In keeping with the life style of the ancient Kurumba folk, our cottages are airy and exotic with their Kurumba - tribal - styled roofed cottages, which are, pyramid shaped and bright interiors with pristine color and tiled work roofs. Every room has its exclusive balcony with ornamental railings made of areca-nut wood. There are king size beds surrounded by intriguing Kurumba artifacts and painting, on the arches and walls.

Kurumba Suites

The suites are two storied with the bedroom upstairs and the dressing room downstairs. The bedrooms are with king size beds and windows large enough to meet the floor and the ceiling; the view through the French window is simply fantastic. The dressing room has a sofa-cum-bed. Each suite is a little less than a 1000 sq. ft.

THE CUISINE

In a large Restaurant with 30-foot-tall tiled roof and enticing ceiling, we serve a multi-cuisine spread. There are expert chefs and amiable staff to suit your gourmet's delight
